

JULY 2016

# Warrior Golf Management

## Course Conditions

Broadmoor Golf Links is proud to show off its freshly recovered course conditions after their difficult Winter and Spring conditions. Despite some heavy setbacks, Superintendent, Michael Fridl, was able to restore the course beyond its former glory. These stunning fairways have hosted several Spring and Summer tournaments and a youth golf camp to promote the growth of the game!

*Heddles - Hollie Storrier, June 1, 2016.*

## Wedding Show

On October 6, 2016, Broadmoor Golf Links is preparing to open its doors and host a wedding expo. With free admission, food and beverage samplings, and several local vendors on display, Broadmoor will play host to hundreds of prospective brides and clients. With this influx of guests, Broadmoor hopes to promote the venue and boost its events and wedding sales while building relationships with local vendors simultaneously.

## Heddles Hideaway

Heddles Hideaway has handled having major equipment repairs beautifully. With repairs to several pumps, ponds, and drainage equipment, as well as several other maintenance projects to improve course conditions, Heddles has had an upkeep overhaul. Despite these annoyances, Heddles is performing beyond projected sales goals under the supervision of Hollie Storrier.

Her management of the course over the past three and a half years has been superb and her guidance and managerial strategies will soon be passed along to the new assistant general manager Megan Soots. As a new manager to the course, Megan brings fresh ideas and has already begun planning several events in her first few weeks at the course including a membership drive and local youth and church groups for tournament opportunities.

We welcome Megan to the Warrior team and expect great results from her positive attitude and forward thinking.
